Financial Objective

To provide capital growth over a period of 5 years or more, with an income.

Sustainability Objective

To support a reduction in the level of greenhouse gas emissions, measured in tonnes of CO₂e avoided on an annual basis, through the Fund's investment in, and with, companies whose products and services provide climate change solutions across seven pre-defined themes: Alternative Energy, Energy Efficiency, Circular Economy, Environmental Services, Water Management, Future Mobility and Regenerative Agriculture.

The Fund invests at least 80% in the shares of listed companies globally.
